Restaurant

Responsible Moroccan Cuisine

Our Angsana Si Said restaurant is located in the heart of our Riad Said. When it was created in 1890, this patio was Sidi Abbes El Fassi's reception room.

On your left as you enter, the fountain is a tradition found in every Moroccan home. They bring coolness in summer and a gentle melody all year round.

Our terrace is open for dining when the weather permits.

Our chefs Mohamed and Hanane has put together a menu to suit all tastes: Traditional Moroccan cuisine or Moroccan cuisine with a twist.

Gustative Experience

Discovering local Moroccan produce

Every day, the chef takes pleasure in cooking fresh local produce from farms and cooperatives. The restaurant also offers daily seasonal specials. To accompany your meals, the restaurant offers a wide selection of quality Moroccan wines, most of which are available by the glass, for everyone's enjoyment !

1 Local Products

The choice to use only local products from Moroccan agriculture. We opt for sensible, healthier consumption practices rooted in the local terroir.

2 Eco-Responsible Food

3 All Home-Made

To keep it simple! Only fresh fruit and vegetables from the local market. Our menu changes with the seasons to create tasty, varied and balanced dishes.

4 Home-Made Flavors

We have our own kitchen garden where we grow our own herbs, to preserve the freshness of taste and ensure the Si Said taste experience !

SPA

a moment of absolute well-being...

Our spa is surprisingly beautiful and exclusive. In keeping with traditional riad architecture, it can only accommodate two people at a time, and is entirely dedicated to you. The Key To Marrakech Souks

Souks generally open from 9am to 9pm.

- A guide is not necessary. Despite the maze of alleyways, you'll always find your way back. Discover the souks around 10:00 a.m., when the not-yet-awake vendors open for business.
- Don't hesitate to enter a store you like - it would be a shame to miss out. Take the time to learn the value of things: the price per m! of a carpet, money per gram.
- Don't let yourself be «guided» into a store, as this involves a commission (backshich) for the guide.
- The choice of carpets is immense. Take a tour of the Souk aux tapis to find the style that suits you best. 1000 DHs per m! is the price of a quality carpet.
- Argan oils, spices, honeys... Beware of artisanal food products, which are often cut or of questionable quality.
- Don't negotiate unless you want to buy. If you are interested in a product, don't show it off. Negotiation is also a game! The seller is never the owner of the store. It's true that you have to negotiate in order to pay a reasonable price, but trying to win 10 dhs for the sake of it will penalize the seller...
